

Nextech | Payments

ACCEPT PAYMENTS ON THE GO

Nextech Payments works with a growing lineup of pre-certified third-party hardware to support a range of use-cases from mobile checkouts to custom countertop experiences.

FAST & SECURE

End-to-end encryption and P2PE-ready

MULTIPLE WAYS TO PAY

EMV chip & contactless, NFC functionality, and magstripe

MOBILE & COUNTERTOP

Optional tablet mount & dock for roaming or countertop use

Reader M2

Reader M2 is an easy-to-use mobile card reader designed for fast, secure payments. It's battery-powered and connects to your iOS and Android point of sale application over Bluetooth.

This reader can be used with an optional dock for countertop checkout experiences or mounted to your mobile device for roaming checkout experiences.

It provides end-to-end encryption out of the box and is point to point encryption-ready. The reader supports EMV chip & contactless transactions, mobile wallets like Apple Pay and Google Pay, and magstripe.

DETAILS

Payment types: Magstripe, Chip (EMV), Contactless (EMV + NFC), Apple Pay, Google Pay
